About Us

“Academic qualifications are important & so is financial education. They’re both important & schools are forgetting one of them...”

—Robert Kiyosaki

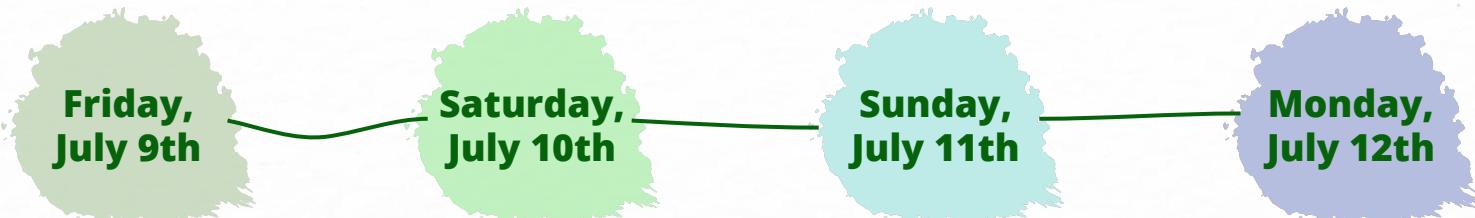

03

Our Evolution

Our Evolution

Beginning

- Reconstructed Project
- Created Name, Chant, & Logo.

Mid

- Discovered Targeted Audience
- Determined the types of Guidance
- Launched Chatbot
- Added Questions & Responses

Mid

- Deployed Flask App in Docker Container into Google Cloud & then inside container
- Deployed the chatbot with Flask locally
- Polished Chatbot & web interface

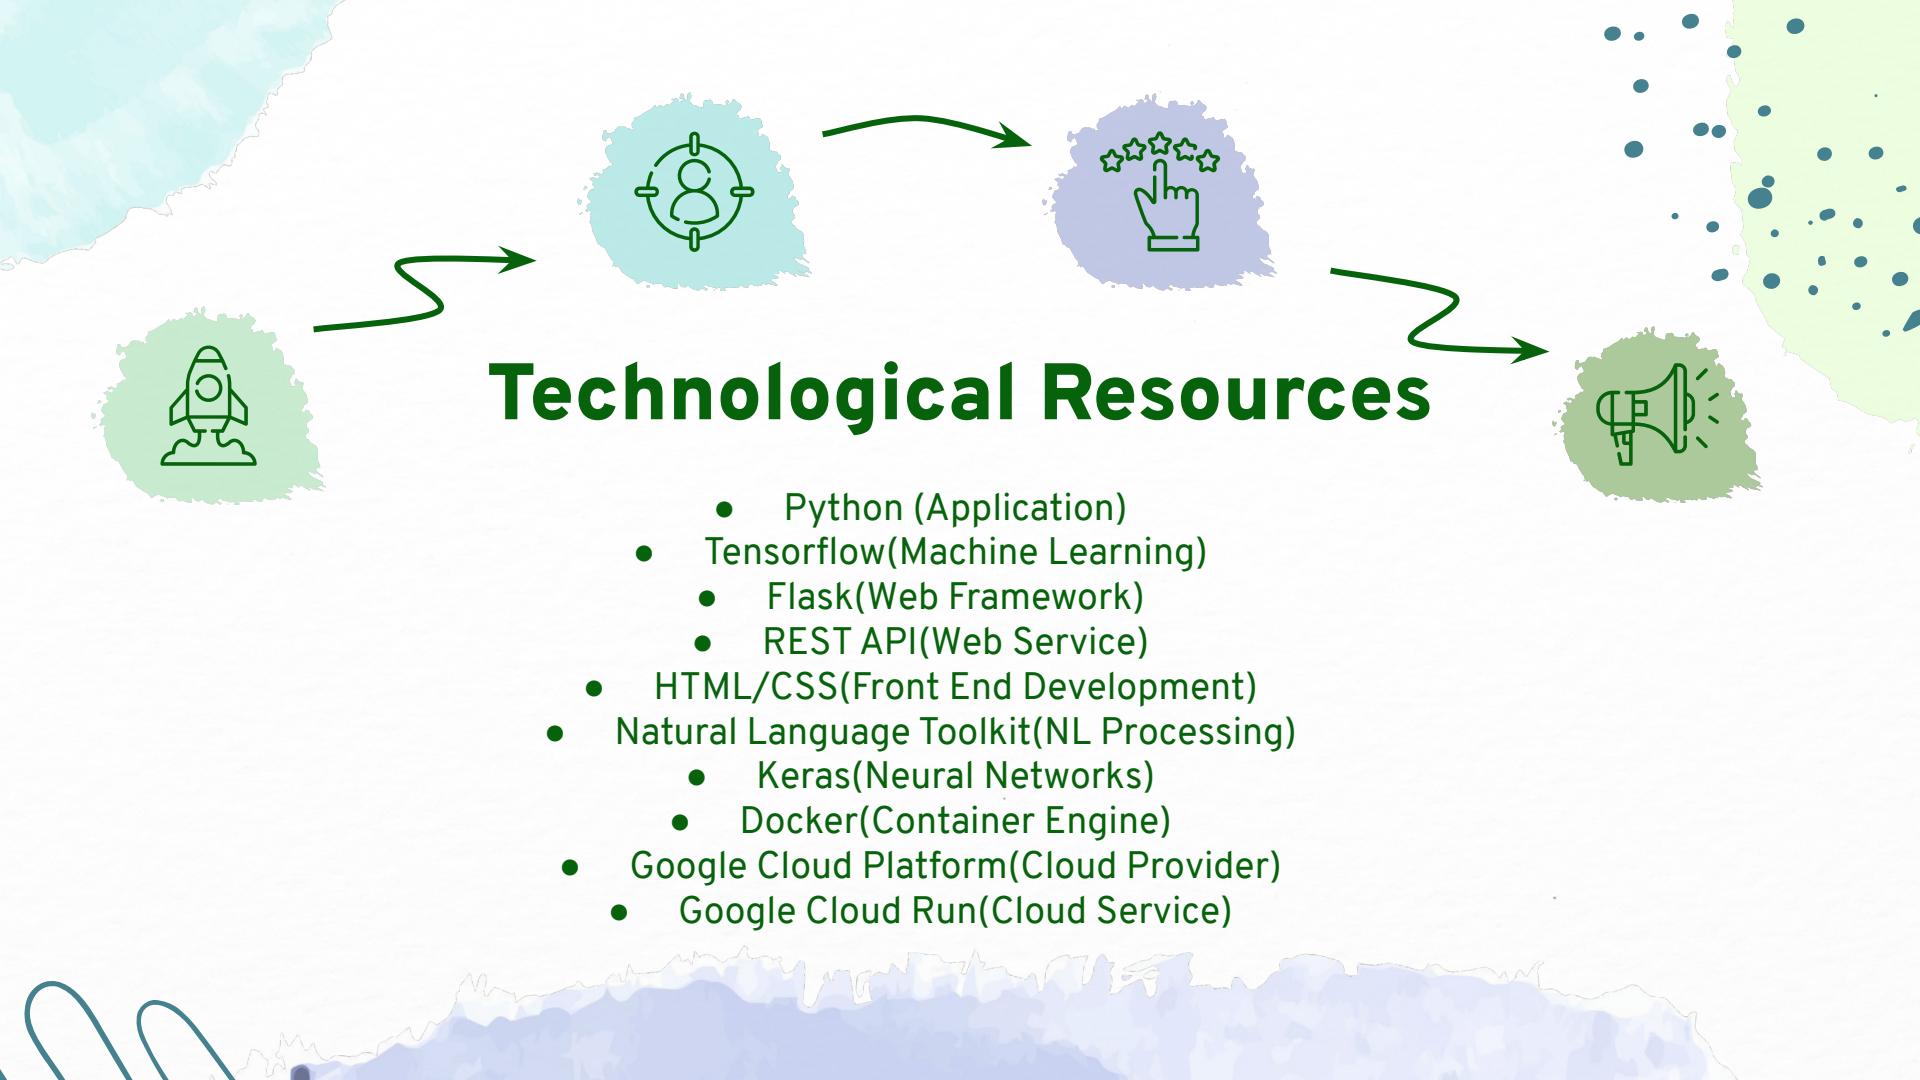

End

- Completed Presentation
- Successfully deployed chatbot using Google Cloud Run

04

Technological Resources

Technological Resources

- Python (Application)
- Tensorflow(Machine Learning)
- Flask(Web Framework)
- REST API(Web Service)
- HTML/CSS(Front End Development)
- Natural Language Toolkit(NL Processing)
 - Keras(Neural Networks)
 - Docker(Container Engine)
- Google Cloud Platform(Cloud Provider)
- Google Cloud Run(Cloud Service)
